NEST-SPOTTING

WOW, LOOK AT HER GO

THE VIEW OF THE SEA

If I asked you to describe Zante in 3 words, chances are that you will name the beautiful Caretta-Caretta, one of Hellas most unique creatures. Monday, October 12, all delegates, CPs, even the Presidency and the escort teachers had the opportunity to spot the infamous nests where thousands of sea turtles are being laid every year. That specific morning, we all had the pleasure of meeting the real-life MEDMEP 2026 Mascot ! While digging the nests, one small baby turtle was trying to abandon the nest so she could join the rest of her siblings at the beautiful Mediterranean Sea. Definitely a morning we will never forget!

THE PROFESSIONALS HELPING US SEE AND UNDERSTAND THE BIRTH OF SEA TURTLES

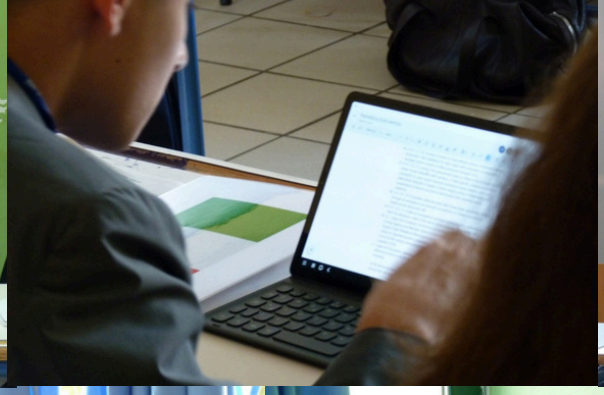

LOBBYING

Lobbying day was anything but quiet. As soon as the papers were distributed, delegates wasted no time getting to work on their amendments and textual changes. Some committees found themselves under heavy fire, while others managed to escape relatively unscathed. The curiosity surrounding the upcoming submissions was impossible to ignore, with some delegates even attempting to blend in with other committees to get a sneak peek at what was being planned. Surprisingly, a few undercover missions actually paid off!

Of course, not everyone was willing to go down without a fight. As disagreements over amendments grew, some discussions became rather intense, and the line between a friendly debate and a heated exchange occasionally grew thin. Meanwhile, in a corner of the room, a poker game was unfolding, seemingly worlds away from the political maneuvering happening around it. And while some were busy playing their cards right, others were busy changing the wording of Europe's future, one amendment at a time.
